## Dean's Message 院長的話

Dear prospective students,

As you know, the Faculty of Arts at CUHK is the largest Arts Faculty among Hong Kong universities and we support more academic departments and centres for humanities research and education than any other universities in Hong Kong. We have always been pivotal to CUHK's commitment to integrating Chinese and Western traditions, to bilingual education and innovative scholarship.

Since its establishment in 1963, CUHK Arts has striven to train academically sound, socially aware minds, creating a global network of more than 30,000 alumni in the process. Currently over 300 faculty members from about 30 regions and countries are engaged in a broad range of academic research fields and provide a vibrant and international learning environment for our students. As always, we encourage our students to take advantage of the many opportunities presented at CUHK, both in and outside the classroom, on and off campus. We want our students not only to acquire knowledge, but also to develop new interests and passions, to make new friends and become active members of our diverse and inclusive community of scholars and learners.

I look forward to welcoming you as new members of CUHK Arts.
